# FORTIETH... Annual Report

-XX-

-44

- XX

OF THE

New South Wates Institution for the

# Deaf and Dumb and the Blind,

For the year ending SEPT. 30th, 1901.

"I will bring the blind by a way that they knew not; I will lead them in paths that they have not known; I will make darkness light before them, and crooked things straight. These things will I do unto them and not forsake them."—ISAIAH xlii. 16.

"Open thy mouth for the dumb."

-Proverbs xxxi. 8.

"It is not the will of your Father which is in heaven, that one of these little ones should perish."

-St. Matthew xviii. 14.

"He has done all things well. He maketh both the deaf to hear and the dumb to speak."

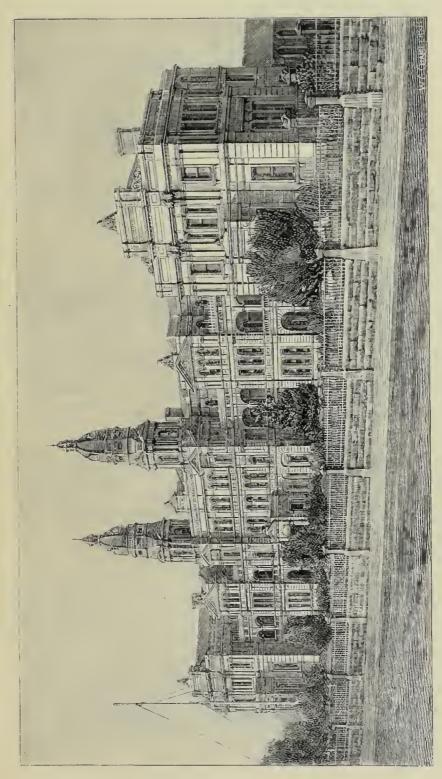

-St. Mark vii. 37.

# N.S.W. INSTITUTION FOR THE DEAF AND DUMB AND THE BLIND

FOUNDED FOR THE DEAF AND DUMB IN 1861, AND FOR THE BLIND IN 1869.

The Foundation Stone was laid by H1S EXCELLENCY the EARL OF BELMORE, on April 3rd, 1871. Opened publicly in February, 1872. Erected on Five Acres of Land on the Newtown Road, Sydney.

### OFFICE BEARERS

FOR THE YEAR ENDING 30TH SEPTEMBER, 1902.

### Patron:

HIS EXCELLENCY THE HON, SIR FREDK. M. DARLEY, G.C.M.G. President:

THE HON. SIR ARTHUR RENWICK, K.B., B.A., M.L.C.

Vice-Presidents:

J. H. GOODLET, Esq., J.P.

JAS. R. LOVE, Esq.

Hon. Treasurer:

FRED. PHILLIPS, Esq.

Hon. Secretary:

ELLIS ROBINSON, Esq., 225 and 227 Castlereagh Street, Sydney

Hon. Consulting Physician:

THE HON, SIR ARTHUR RENWICK, K.B., B.A., M.L.C.

Hon. Physician:

W. CAMAC WILKINSON, Esq., M.D., M.R.C.P., M.R.C.S.

Hon. Aurist and Oculist:

T. STORIE DIXSON, Esq., M.B.

Hon. Surgeon:

DR. HERBERT J. MARKS.

Hon. Auditors:

THOMAS PRATT, Esq., f.s.i.a. | T. F. H. MACKENZIE, Fsq., f s i.a.

Hon. Dentist:

S. CHAIM, Esq.

Directors:

WM. CARY, Esq., J.P. ROBERT CHADWICK, Esq. ALEXR. DEAN, Esq., J.P. JOHN HARRIS, Esq., J.P. WM. RIGG W. H. SIMPSON, Esq., J.P.

J. S. HARRISON, Esq. F. S. ELLIS HOLT, Esq. DR. P. SYDNEY JONES. WM. RIGG, Esq., J.P.

Ladies' Visiting Committee:

MRS. WM. BRIGGS
MRS. THOMAS COWLISHAW
MRS. T. STORIE DIXSON
MRS. J. H. GOODLET
LADY HARRIS

MRS, GEORGE HARRIS MRS. J. S. HARRISON

MRS. J. R. LOVE MRS. P. F. MACKENZIE MRS. M. MANSON MRS. JOHN MARKS LADY RENWICK MISS ROBINSON MRS. W. H. SIMPSON

Trustees:

HON. SIR ARTHUR RENWICK. K.B., B.A., M.L.C. J. H. GOODLET, Esq., J.P.

SIR JAMES FAIRFAX JAS. R. LOVE, Esq. ELLIS ROBINSON, Esq.

Superintendent:—SAMUEL WATSON, Esq.

Assistant Secretary and Accountant:

MR. HENRY COOKE.

Travelling Collector:

Mr. JAMES V. PERSTON.

Matron: MRS. MACLEOD. Matron's Assistant: MISS GRAHAM.

Senior Teacher of the Blind: MISS KENYON.

Teacher of Articulation on the "German" System:

# Visiting Professor of Music: MR. ARTHUR MASSEY.

Mile. Miletifold Milesonia.

Teacher of Drawing: MR. J. A. BENNETT.

### **Assistant Teachers:**

MR. LUTHER EVERINGHAM MISS BEAUMONT MISS JONES MISS BEGENT MR. HAMILTON BYRNE MR. T. C. HEWITT MISS DONELLY MR. R. REID

### Architects and Consulting Engineers:

MESSRS. A. L. AND G. McCREDIE.

### Instructor in Carpentry:

MR. REUBEN SELL.

### Drill Instructor:

MR. LUTHER EVERINGHAM.

The Institution is open to Subscribers and other Visitors on Tuesdays and Fridays from 2 until 4 p.m.

### Life Directors:

### APPOINTED IN ACCORDANCE WITH THE RULES.

1. For five years' continuous services as an Hon. Officer:

DR. T. STORIE DIXSON
DR. W. CAMAC WILKINSON

ELLIS ROBINSON, Esq. FRED. PHILLIPS, Esq.

2. For ten years' continuous services as a Member of Committee :-

E. T. BEILBY, Esq. SIR JAMES R. FAIRFAX J. H. GOODLET, Esq., J.P.

J. S. HARRISON, Esq. JAMES R. LOVE, Esq. E. SABER, Esq.

3. As Donors of £50 and upwards in one payment:-

HIS EXCELLENCY THE RIGHT HON. THE EARL OF BELMORE. W. B. CAMPBELL. Esq. | JOHN HARRIS, Esq., J.P. ROBERT CHADWICK, Esq.

4. For Special Services rendered to the Institution:

MRS. J. H. GOODLET HON. SIR ARTHUR RENWICK, K.B., B.A., M.L.C. F. H. DANGAR, Esq. RICHARD SLEE, Esq. W. EDWARD WARREN, Esq., M.D.

RESOLUTIONS passed at the Fortieth Annual General Meeting held at the Institution, Newtown-road, on Monday Afternoon, 21st October, 1901.

The Hon. SIR ARTHUR RENWICK, K.B., M.L.C., President, in the Chair.

Moved by the Hon. Sir Arthur Renwick, M.L.C.,

Seconded by Rev. J. E. CARRUTHERS: -

"That the Report be adopted, and, together with the Balance Sheets, be printed for circulation."

Carried unanimously.

Moved by Fred. Phillips, Esq., Seconded by Rev. B. Stephens:--

"That the thanks of this meeting are hereby given to the Government and Parliament for the annual donation of £450 in aid of the funds of the Institution."

Carried unanimously.

Moved by Alexander Dean, Esq., J.P.

Seconded by Thomas Cowlishaw, Esq. :-

"That the following gentlemen be members of the Board of Management for the ensuing year:—President, the Hen. Sir Arthur Renwick, K.B., M.L.C.; Vice-Presidents, Mr. J. H. Goodlet, J.P., and Mr. Jas. R. Love; Hon. Treasurer, Mr. Fred. Phillips; Hon. Secretary, Mr. Ellis Robinson; Directors (to fill vacancies), Mr. W. H. Simpson, J.P., Mr. Robert Chadwick, and Mr. John Harris, J.P. And that the following do constitute the Medical Staff:—Hon. Consulting Physician, the Hon. Sir Arthur Renwick, K.B., M.L.C.; Hon. Physician, Dr. W. Camac Wilkinson; Hon. Aurist and Oculist, Dr. T. Storie Dixson; Hon. Surgeon, Dr. Herbert J. Marks.

Carried unanimously.

# FORTIETH ANNUAL REPORT

OF THE NEW SOUTH WALES

# Institution for the Deaf and Dumb & the Blind,

For the Year Ending September 30th, 1901.

At the close of the fourth decade in the history of this Institution, the Directors have much pleasure in submitting their report of the leading events, the financial operations and the progress of the last twelve months.

### PUPILS.

The following table shows the number of pupils benefited in the Institution since last report:—

	Deaf &	Deaf & Dumb.		ind.	То	Grand	
On the Pulls Sentember	Male.	Female.	Male.	Female.	Male.	Female.	Total.
On the Rolls September 30th, 1900	49	31	15	8	64	39	103
Admitted since	7	7	l	1	8	8	16
	56	38	16	9	72	47	119
Discharged or Removed	7	4	3	4	10	s	18
On the Rolls now	49	34	13	5	62	39	101

Among those admitted were two former pupils who had been at home during the whole of 1890. Of the others, five were over the age of ten years when they entered the Institution, and one was over fourteen. It is a fact much to be deplored that these children were not sent to school at an earlier age. Years of valuable time have been wasted, and the future-life of the children has been discounted by the loss of education which they might have had if the parents had sent them to school a few years sooner.

The period necessary for the education of these afflicted children is from eight to ten years. It should commence at the age of seven and be continued regularly up to sixteen or seventeen. If a child is not supplied with sufficent food for his body he will grow up stunted, weak, and wanting in energy.

As with the physical so with the mental necessities. For every year that an afflicted child is kept at home after reaching the age of seven a portion of his education is absolutely lost, and the mental powers remain weak and undeveloped. Children, coming to school when 14 or 15 years old, cannot possibly receive the full advantages of the instruction given. Others are kept at home to such an age that their admission cannot be granted, consequently they grow up totally uneducated, are thus rendered quite incapable of doing anything for themselves, and therefore become a burden on society.

It is the earnest wish of the directors that the attention of the parents of such children may be drawn to this matter so that they may be led to realize their responsibilities, and to take the necessary steps at the proper time to give their afflicted children the best education that can be obtained. The pupils of this Institution have a good home, are well cared for, liberally fed and kindly treated, and there is no obstacle whatever to a child's admission, providing that he is considered eligible.

Numbers of those who have passed through the Institution, after staying the full course, are now occupying good positions, fighting bravely the stern battle of life, proving themselves useful, self-supporting members of the community, and a credit to the Institution.

Situations were found for several of the deaf pupils whose education was sufficiently advanced to justify their discharge; three of the blind entered the Industrial Blind Institution, Boomerang-street, Woolloomooloo, one of whom (John McDermott), we regret to say, shortly afterwards became ill and died. He was a good boy in school, made excellent progress with his lessons, and behaved exceedingly well. His death occurring so soon after his leaving here came as a shock to his old schoolmates and teachers. Another blind boy returned to his home in Tasmania. He was the last of the pupils from that State. The remainder of those who left, returned to their own homes.

Although some hundreds of children have passed through the Institution, it is a cause for much thankfulness that not a single death has taken place among them during their residence here, for about 25 years.

During the year, in order to protect the children from that much-dreaded disease, small-pox, which had made its re-appearance in Sydney, but which, happily, has again been stamped out, the vaccination of the pupils was attended to, and all those who had not previously been operated on, except two, whose parents strongly objected, were vaccinated with pure calf-lymph by Drs. T. Storie Dixson and W. Camae Wilkinson.

Notwithstanding the unusual severity of the winter just passed through, and the great prevalence of influenza and other kindred diseases, the health of the pupils has, on the whole, been very good. One rather serious case of pneumonia, however, occurred, but the patient, a deaf boy, thanks to the skilful attention of the medical officers and the care of the matron, has quite recovered. All the pupils are now in good health.

### FINANCIAL.

The receipts during the year on General Fund Account were £4684 1s. 3d., and the expenditure, including overdraft of £270 19s. 4d. from the previous year, and a transfer of £37 7s. 5d. to Reserved Interest Account, was £4664 5s. 5d., leaving a credit balance of £19 15s. 5d. to be carried forward.

The special receipts were as follows:—Henry Wait's legacy £1600, and the balance of Miss Sophia M. R. Tvre's legacy £60 4s. 7d., placed to the credit of the Perpetual Subscribers' Fund; also the following legacies credited to the Building Fund Account:—Joshua Wilson, £10; Anders Paterson, £17 10s 11d.; and William Roberts, £22 12s. 7d.

The auditing of the accounts has again been carried out gratuitously by Messrs. T. F. H. Mackenzie, M.L.A., and Thomas Pratt, public accountants, and the warmest thanks of the Board have been awarded to these gentlemen for their services.

# BOARD OF MANAGEMENT AND LADIES' VISITING COMMITTEE.

His Excellency the Lieutenant-Governor (Sir Frederick M. Darley, G.C.M.G.) has kindly accepted the office of patron.

It is with feelings of deep regret that the Board have to announce the death, on the 28th October, 1900, of the Hon. R. H. D. White, M.L.C., who, as a liberal benefactor to the Institution and a director since 1890, had rendered valuable service, and had manifested a warm interest in the welfare of the inmates.

Mr. Robert Chadwick has again been absent the whole of the year, residing in England. Advantage has been taken of his presence there, and his assistance has been secured in making arrangements for the visit of Miss Beaumont to Ealing College, a matter referred to elsewhere.

The directors desire once again to express their thankfulness to the Ladies' Visiting Committee for the oversight given and the valuable assistance rendered in regard to the domestic affairs of the Institution. The ladies hold a meeting once a month and take it in turns to visit the Institution every week, and report to the Board on any matters requiring attention.

At the invitation of the Board, Dr. Herbert J. Marks, in July last, kindly consented to accept office as honorary surgeon to the Institution. This appointment will be submitted for confirmation at this meeting.

### OFFICIAL STAFF.

In April last Miss Bateman, the principal teacher of articulation and lip-reading, resigned her position in order to join her mother and take up a position in Hongkong. In order to fill the vacancy, it was decided that Miss Beanmont, a teacher who had been trained in the Institution, and had had twelve years' experience as an articulation teacher, be sent to England for a course of special instruction at the Ealing College for Training Teachers of the Deaf on the German system. Miss Beaumont accordingly left Sydney in July for the purpose indicated, under an engagement to serve the Institution for three years after her veturn. She will also visit some of the best schools for the deaf in England and Germany, with a view of acquiring all the latest knowledge in regard to this important subject.

It is confidently anticipated that Miss Beaumont will reap much benefit from her trip to England, and will return fully equipped, not only for teaching the pupils, but for training other teachers also.

The loss of Miss Bateman and the temporary withdrawal of the services of Miss Beaumont necessitated a re-adjustment of the duties of the other teachers and the employment of another assistant. This has been accomplished, and the work of the Institution is proceeding satisfactorily.

In accordance with a recommendation of the Royal Commission on Public Charities "That a more extended energetic canvass for public subscriptions be made, particularly in the country districts of the colony," and, in order to provide for the increased expenditure of the Institution, it was decided early in March last to advertise for an assistant collector, whose duty would be not only to canvass for subscriptions, but also to make enquiries respecting afflicted children, with a view of getting them into the Institution at a suitable age. Out of a large number of applicants, Mr. James V. Perston was sclected. He entered upon his duties on the 1st April, and has visited all the principal towns on the Southern, Northern and Western lines and branches. For various reasons, the result of Mr. Perston's efforts is not quite so satisfactory as was anticipated, but he was well received by those on whom he called, and there is no doubt that, under more favourable circumstances, which it is believed will prevail during the ensuing year, the returns

from the country districts will be much better than those of this year.

### INSTITUTE FOR THE ADULT DEAF.

Mention was made in last years' report of the purchase of the lease of the triangular piece of land adjoining the Institution, with the object of erecting thereon an Institute for the Adult Deaf, where they could meet for instruction, mutual

improvement and social intercourse.

In furtherance of that object, the Board, after careful and prolonged consideration, instructed Messrs. A. L. and G. McCredie. architects, to prepare plans for a suitable building. Tenders were invited, with the result that Mr. E. Banner's tender of £1700 was accepted. The building was commenced in July, and is being rapidly pushed on towards completion. It will probably be ready for occupation by December, and will be publicly opened as soon as convenient.

The directors confidently anticipate that this Institute will be productive of much good among the adult deaf. It will enable the officers of the Institution to keep in touch with them after they leave school, help them to continue their education and to obtain employment, give them religious instruction, wise counsel and advice, and encourage them in various

ways to be useful, self-respecting and creditable citizens.

A tender was also accepted for the erection of a stone wall and piers, with iron railing, on the Newtown Road frontage, to match that in front of this Institution, and a dwarf wall and galvanised iron fence on the Darlington Road side.

These additions, when completed, will be an ornament to the locality, and will considerably improve the appearance of

the neighbourhood.

The funds for the purchase of this lease and for the erection of the building have been taken from the Perpetual Subscribers' Fund.

### GENERAL.

By direction of the Minister of Public Instruction, at the invitation of the Board. Inspectors Willis and Skillman held an examination of the pupils on the 29th and 30th November, and furnished a detailed report of the result. The summary of

their report contains the following remarks: -

"The school-rooms afford ample and unoroughly comfortable accommodation for the pupils, and all the necessary technical apparatus, and the ordinary school material required are liberally provided for the several classes. The course of instruction is a varied and appropriate one. It comprises the following branches:—Reading, Writing, Arithmetic, Grammar, Geography and Mapping, History, Object Lessons, Dictation, Eng-

lish, Composition, Scripture, Drawing, Music, Modelling, Carpentry, Cookery, and Needlework. The classification of the pupils is sound, and the instruction is suitably graded, and the methods of teaching are modern in type, skilful and effective. The pupils behave admirably during the progress of their work in class. They exhibit a respectful demeanour towards their teachers, are orderly, strictly attentive, and responsive. The teachers of the staff are a competent, zealous, and successful body of workers. They govern their pupils effectively, give instruction intelligently, and perform all their duties in a satis-

factory manner."

The annual public examination of the pupils took place at the Institution on Thursday, 13th December, at the breaking up of the school for the Christmas holidays. There was a large gathering of subscribers and friends of the pupils, and the audience manifested a keen interest in the proceedings, and showed, by their frequent applause, their appreciation of the successful manner in which the pupils acquitted themselves. Valuable prizes, provided by the Board, were distributed among the deaf pupils, and the sum of £50 2s. 9d., from the Spittles' Legacy Fund, was divided among the blind students, in accordance with the terms of the testator's will. During the year accumulated prizes and interest amounting to £303 17s. 4d. have been paid to the pupils who have left, or to their legal representatives. The amount still standing to the credit of the blind pupils is £389 12s. 1d., and is invested in the Savings Bank of New South Wales.

A musical entertainment in aid of the Adult Deaf Mutes' Association was given at the Institution on the 11th December,

and proved a great success.

The technical education of the pupils has been vigorously carried on during the year. The deaf boys in the earpentry shop, the deaf girls in the cookery school and the laundry, both sexes in the drawing and modelling classes, and the blind at music (both vocal and instrumental), have made good progress. This technical instruction is a source of pleasure and delight to the pupils, and utilises their spare time to the best advantage. While it is a relief from the ordinary school duties, it is a training for the eye and the hand which cannot fail to be of great benefit to the pupils after their school days are over. It instils into their minds a love for that which is useful and beautiful, and helps them to understand the true dignity of labour and to make the best use of the faculties and opportunities with which God has endowed them.

At the City Mission Fair held in the Sydney Town Hall in October last, one of the deaf pupils, Ellen Davison, took the second prize for scones in a competition open to all comers, and thus demonstrated in a practical way the success of the in-

struction she had received in the cookery school.

During the Christmas holidays eighteen adult deaf mutes from Victoria visited Sydney to attend a Congress of the Deaf and Dumb, and to witness the Commonwealth eelebrations. They were lodged and entertained at the Institution, and afterwards expressed their satisfaction and gratitude for the hospitality they had received at the hands of the Board and the officers of the Institution.

The directors gratefully acknowledge their indebtedness for the following gifts and services:—To Lady Renwick, for a pienic to the officers and pupils at Abbotsford on October 20th, 1900; to Mr. Arthur C. J. Wood, for free conveyance in his drags of the pupils and officers to Sandringham; and to Mr. E. D. Tollemache for the free use of his grounds; to Mr. F. H. Dangar for his annual donation of fruit, cake and sweets at the breaking up of the school in December; to Mrs. Doubleday, for her kindness in visiting the Institution and giving instruction in needlework; to the hon, medical officers—Dr. W. Camac Wilkinson, Dr. T. Storie Dixson, Dr. Herbert J. Marks, and to the hon, dentist, Mr. S. Chaim—for their prompt and skilful attention when required; to numerous friends in the country districts, for subscriptions collected; and to the Press of the State, for many free advertisements and eulogistic notices.

### CONCLUSION.

The directors desire to express their deepest gratitude to Almighty God for the mercies and blessings of another year, for the good work the Institution has done, and for the success it has achieved. They trust that the Divine guidance and blessing which has been so bountifully vouchsafed to the Institution in the past may be continued in the future.

ARTHUR RENWICK, President. Ellis Robinson, Hon. Secretary.

SYDNEY, October 14th, 1901.

### AUDITORS' CERTIFICATE.

Having examined the Books, Securities and Vouchers of the New South Wales Institution for the Deaf and Dumb and the Blind, we hereby certify that we found everything correct, and the books kept in a thoroughly satisfactory manner.

T. F. H. MACKENZIE, F.S.I.A. Auditors. Thomas Pratt, F.S.I.A.

Sydney, October 16th, 1901.

### SUPERINTENDENT'S REPORT.

Gentlemen,—Another year in the history of your Institution has drawn to a close—a year of quiet, steady work, and, like its predecessor, one of healthy progress.

At the close of last year, however, we were taking retrospective views, thinking of the past, of the great and gratifying developments which the century just ending had brought. Just now one's thoughts naturally run towards the future, towards the new century, with the hopes and aspirations it is calculated to awaken.

But in a work like this, whether one thinks of the past or the future, one feels strongly that success comes only as a result of earnest endeavour, of patient plodding in the path of duty, and of cultivating a spirit of hopefulness in spite of the difficulties incident to the daily routine, both within the school-room and outside.

It has been well said that "a difficulty is simply something to be overcome." Looked at in this light, the education of these afflicted children should have a peculiar fascination, especially, perhaps, for any one endowed with an ardent or earnest nature—anyone able to sympathise with and share the burdens of others.

For what does Education mean to the Blind and Deaf? Does it not mean shedding light upon minds hitherto in darkness, awakening powers that were either inert or dormant, and so bringing into healthy activity faculties and forces calculated to sweeten and ennoble life?

Truly the work carried on day by day in your Institution possesses far more than the ordinary amount of interest. Whether viewed from a social or ethical standpoint; whether one considers the children themselves and their necessities, or the community at large and its welfare; whether, in a word, the results are measured by time or eternity, it appeals strongly to every right-thinking person. And it requires no prophetic eye to foresee the good time coming, when many who were once looked upon as mere waifs and strays of humanity; who, in the rough struggle for existence, were cast aside as useless burdens; persons Blind or Deaf, or otherwise afflicted; in fact, all those unfortunate ones in our midst, hitherto sorely neglected, will be cared for, educated, and utilised.

Judging by the upward and beneficent tendencies everywhere apparent, the spirit of generous sympathy and toleration which is growing and leavening the national conscience, the above is no mere optimistic or idle dream.

And when the education of the Deaf and Blind is made compulsory here, as elsewhere, it will be a boon and a blessing

to many now growing up in ignorance—many whom you are endeavouring (in vain sometimes) to gather in and care for here.

### CHANGES.

In May last Miss Bateman, who had been with us as head teacher in the Oral Department for over four years, left to join her mother in Hong Kong.

In consequence of this, you saw fit to send Miss Beaumont to the College at Ealing, London, in order that she should be duly equipped and accredited for the position thus rendered

vacant.

With this object in view, and after twelve years of faithful service here without any prolonged break or holiday, she sailed in July last for England. There she hopes soon to get her certificate, and return to her duties here again—but not without having gathered some varied and valuable experience which will afterwards be beneficial, I trust, to the Institution.

This very desirable aim accords both with your wish and her own, and it will tend to justify, if that were necessary, the action you have taken regarding this important matter, viz.,

sending one of the staff to England.

I am glad to say that the appointment of Master Robert Reid to help temporarily in the schoolroom, and in the care of the boys, is giving entire satisfaction; also that the other teachers have one and all fallen in most cordially with the rearrangements of the classes, etc., which the above-mentioned changes compelled me to make.

Indeed, it is largely owing to their warm and willing cooperation, their devotion to all that concerns the pupils' welfare, with the reflex influence it has upon the minds and hearts of the children, that the daily routine of school work here goes on so

smoothly and happily year after year.

### EXAMINATIONS.

My weekly examination of the several classes goes on as heretofore, as also the monthly written ones. These examinations keep me in pleasant and helpful touch with every class—with every child, in fact—throughout the school, and have beneficial results. They show, among other things, the quality and amount of the work done by both teachers and pupils, how painstaking it generally is, and that "something attempted something done" each day means, in the long run, an educated Deaf or Blind child, or children; it means sending out from your Institution, and into the community whence they came intelligent youths, able not only to hold their own in this busy competitive age, but also and often to be a great help to their friends and others.

### THE ADULTS.

The adult Deaf, the ex-pupils of the Institution, are much gratified to see the new building or Institute going up so rapidly. Here they hope to be able to meet for social, intellectual, and other purposes. Here, too, they will find a rendezvous off the streets, where wholesome literature, games, etc., will occupy their leisure evenings.

The feeling that the building is for their own special welfare, both morally and otherwise, will be stimulating in many ways; it will foster a spirit of brotherhood and healthy cohesion, which will tell for good not only on the Deaf of Sydney, but also

upon others wno from time to time visit us.

In this commodious meeting-place these young people, whose affliction isolates and handrcaps its victims, will find not only company and counsel, but real friendship, thus brightening their lives, smoothing their pathway as they journey on, and pointing them, I trust, to better things beyond.

It is pleasant to be able to say that the meetings have been held regularly on Sunday and Wednesday evenings in the rented schoolroom, that the conduct of almost all these young men and women has been most exemplary, and that they are trying to

live independently.

Thus their quiet, steady lives reflect credit upon themselves and the Institution where they were trained—a statement which is borne out and emphasised by the reports and experiences of Mr. Booth, their Missionary.

### DEAF VISITORS.

At the end of last year they were much gratified by a visit from the adult Deaf of Melbourne, with representatives from South Australia and Queensland.

This visit, which combined pleasure with duty, afforded the adult Deaf of each of the several colonies or States an opportunity to discuss matters of mutual interest.

### CONFERENCE.

At this gathering, or assembly, over which Mr. F. S. Ellis Holt kindly presided, they expressed very fully and freely their views upon such questions as trades and missions for the Deaf, Methods of Education, etc., etc., and it was most pleasing to see the animated but very courteous way in which the whole proceedings were carried out.

During their stay here Sydney was en fete on account of the Commonwealth celebrations, hence the pleasure of their visit was enhanced considerably by all they saw, as also by the very kind and considerate way in which you granted them accommodation here. Cordial expressions (substantial tokens, too) of their

warm appreciation were made by these Deaf young ladies and gentlemen, of whose exemplary conduct and courtesy I could not

speak too highly.

I must not fail to add that our own adult Deaf did their utmost to make their visitors enjoy their stay among us. Miss Begent, Mr. Booth, and others gave their whole time and energy to arranging for picnics, trips to various sea-side resorts, etc., for

their guests.

All this was done in recognition of the kindness shown them while in Melbourne during a former Christmas holiday. Needless to say, this interchange of courtesies among the adult Dcaf—these periodical visits to and fro—brighten the lives, and in various ways stimulate these interesting young people, and do good in many ways besides those which are apparent.

### IN CONCLUSION

let me say that the Carpentry, Music, Drawing, and Modelling Classes go on steadily, as in bygone years, and that the Teachers speak warmly, as a rule, of the pupils, their conduct, progress, etc., whilst the pupils reciprocate the good feeling both by their bright responsive manners and attention to lessons.

Sept. 30, 1901.

SAMUEL WATSON.

### MUSIC MASTER'S REPORT.

TO THE BOARD OF MANAGEMENT.

Gentlemen,—The Blind pupils have made very fair progress during the past year with their musical studies, especially those who have piano lessons, as they are enabled to put into

practice what they learn in the theory class.

The Singing and Theory Classes have been regularly attended, and though they have suffered considerably through the loss of numbers, the singing is tairly good. I would like to add that the behaviour is excellent, all seeming to be interested in their work.

ARTHUR MASSEY.

"Hawthorn," Glebe Point, October 11th, 1901.

### DRAWING AND MODELLING TEACHER'S REPORT.

Gentlemen,—In looking over the work done by the pupils in the Drawing and Modelling Classes during the past year, I find that they have made good progress, and that their work compares very favourably with that done by other children of their own age, and who have use of all their faculties.

The pupils all seem interested in their work, and several of them show decided talent.

EDITH G. CUSACK.

Locum Tenens for Mr. J. A. Bennett.

October 9th, 1901.

### EXAMINERS' REPORT.

# The N.S.W. Institution for the Deaf and Dumb and the Blind.

# REPORT UPON THE EXAMINATION OF THE PUPILS.

This Institution was visited, and the pupils in it examined, on the 29th and 30th of November, 1900.

THE TEACHING STAFF.

THE TEACHING BIAFT.

General Superintendent: Mr. S. Watson.

Teachers in the Deaf and Dumb Department:

- (A) Oral Branch: Mr. S. Watson, Miss Bateman. Miss Beaumont, Mr. Everingham, Mr. Byrne, and Mr. Hewitt.
- (B) Manual Branch: Miss Begent and Miss Jones.

Teachers in the Blind Department: Miss Kenyon and Miss Donelly.

Besides these Teachers others are appointed to instruct the pupils in Music, Drawing, Modelling, Carpentry, Needlework,

and Cookery.

The schoolrooms afford ample and thoroughly comfortable accommodation for the pupils, and all the necessary technical apparatus, and the ordinary school material required, are liberally provided for the several classes. The course of instruction is a varied and appropriate one. It comprises the following branches:—Reading, Writing, Arithmetic, Grammar, Geography and Mapping, History, Object Lessons, Dictation, English Composition, Scripture, Drawing, Music, Modelling, Carpentry, Cookery, and Needlework.

The classification of the pupils is sound, the instruction is suitably graded and the methods of teaching are modern in

type, skilful, and effective.

The pupils behave admirably during the progress of their work in class. They exhibit a respectful demeanour towards their teachers, are orderly, strictly attentive and responsive.

The Teachers of the staff are a competent, zealous, and successful body of workers. They govern their pupils effectively, give instruction intelligently, and perform all their duties in a satisfactory manner.

Assuming "ten" as the maximum of marks obtainable, the average proficiency of each class in the several departments

stands thus: -

### Deaf and Dumb Department:

- (A) Oral Branch: Class I., 7.8; Class II., 6.6; Class III., 7.4; Class IV., 6.6; Class V. (a), 6.4; Class V. (b), 6.3; Class VI.,7.5.
- (B) Manual Branch: Class I., 8.0; Class II., 7.0; Class III., 6.5; Class IV., 6.0.

### The Blind Department:

Class I., 7.7; Class II., 6.5; Class III., 7.0; Class TV., 6.6.

Appended to this report arc lists showing, in detail, the marks awarded for the several subjects taught to each class.

In conclusion we summarise our report on the efficiency of this school thus:—

Organisation, Very Good (9.0).

Discipline, Excellent (10.0).

Instruction, average proficiency (7.0). General Management, Very Satisfactory.

M. WILLIS. H. SKILLMAN.

INSPECTORS.

Sydney, 8/12/1900.

### SPEECHES AND PROCEEDINGS

### ... at the ...

### Fortieth Annual General Meeting.

ye ye ye

The Annual General Meeting of subscribers and friends, held in the large hall of the Institution on Monday afternoon, October 21st, 1901, attracted about 400 people. The President, the Honorable Sir Arthur Renwick, K.B., M.L.C., occupied the chair, and was supported on the platform by Mr. J. R. Love, Vice-President; Mr. Fred. Phillips, the Honorary Treasurer: Mr. Ellis Robinson, the Honorary Secretary; and Messrs. J. S. Harrison, F. S. Ellis Holt, Alexander Dean, J.P., W. H. Simpson, J.P., and Dr. P. Sydney Jones, Directors; also the Revs. J. E. Carruthers and B. Stephens, and Mr. Thos. Cowlishaw. The following members of the Ladies' Visiting Committee were accommodated with seats in the body of the hall near the platform, namely:—Lady Renwick, Lady Harris, Mesdames John Marks, Thos. Cowlishaw. J. R. Love, T. Storie-Dixon, and Geo. Harris.

After some music, contributed by the blind pupils of Mr. Arthur

Massey, teacher of music in the Institution,

Sir Arthur Renwick opened the proceedings by remarking that the rules of the Institution provided that once every year a board of management must be elected and the various duties in connection with their work fairly and fully considered by the subscribers. The directors were very glad indeed to see such a large assemblage of the general public interested in the welfare of the Institution.

As a matter of form, seeing that the Annual Report and Treasurer's Statements had been circulated throughout the audience, he

would move that these be taken as read.

This having been agreed to,

Sir Arthur Renwick, continuing his remarks, said:—I have to state that His Excellency the Lieutenant-Governor, Sir Frederick Darley, is unfortunately prevented from being present here to-day and presiding over the business of this meeting, but he has sent a very warm letter of apology, and has accepted the position of Patron of this Institution.

Several other gentlemen and ladies connected with the Ladies' Committee, from various causes, are unable to be present with us.

The first resolution is as follows:—"That the report now read be adopted, and, together with the balance-sheets, be printed for circulation."

In accordance with our usual custom, it falls to my lot once more to move the adoption of our Annual Report, and I can assure you that upon this occasion I perform this duty with the greatest possible satisfaction.

When you read this report over carefully, you will find that it contains matters on which all those who are interested in the welfare of this Institution may be sincerely congratulated. Whether we look

at the mode in which the business of the Institution has been conducted, the educational training provided for the children, or their moral and religious progress, we find great reason for satisfaction. As a matter of fact, in this report you will find certificates from the appointed Inspectors of the Public Instruction Department having reference to this subject, and showing that the children during the past year have progressed remarkably in their studies, and that a good, sound, English education is given to the children from beginning to end: that the sanitary condition of the Institution is excellent, and the school-rooms well managed. In other words, the children are very perfectly trained in all matters which came under the

cognisance of the Inspectors.

I am gratified to be able to inform this assemblage and the public at large that the financial management of this Institution has been earried on during the past year in a most satisfactory manner. Every duty connected with the Institution has been fully discharged, no expense has been spared that was necessary, but due economy has always been exercised. If you look at the Treasurer's statement of account you will notice there has been an increase in the income during the year under discussion of £220 13s. 1d. Last year it was my unfortunate duty to announce to you that, in consequence of the large expenditure in connection with repairs and alterations of these buildings, we had unfortunately found ourselves saddled with an overdraft. We had run on the wrong side of the account. But this year, fortunately, we are on the right side. We commenced with an overdraft of £270 19s. 4d., and torminated the year with a credit balance of £19 15s. 5d. That is most satisfactory. (Hear, hear.) It is well to know that the expenses of an Institution such as this are being so regulated that wo do not fall into debt. Many of the charities with which I am acquainted in this city, and many large institutions also, are unfortunately in a much less favourable position, but this Institution has been able to come out with its accounts on the right side.

Passing now to the domestic condition of the Institution, I am glad to be able to inform the subscribers and public, that during the past year most happy conditions have prevailed. The children, as has been the case for many years past, regard Mr. Watson, the Manager, as a kind of father. (Hear, hear.) He stands really in loco parentis to all the children here. It is a great responsibility for any man to undertake, but during the past years Mr. Watson has fulfilled that duty most satisfactorily. We have testimonials from the children who have passed through this Institution, and who are now fighting the battle of life in the city and elsewhere. We have also testimonials from the mothers and fathers of those children, stating that they are highly satisfied with the work which Mr. Watson has performed on their behalf. And what shall I say of the Matron? 1 only wish now that some member of the Ladies' Committee was standing here in my place and testifying as to the mcrits of the Matron. All I can say is, that I understand from the ladies that they are perfectly satisfied with the admirable way in which the Matron has discharged her dutics during the past year. And the same may be said of all the teachers connected with the Institution. Without fear of eontradiction, I may say that there has been no difficulty whatever

with regard to these matters.

Now those are the most important matters that concern an Institution such as this—an Institution which is really scholastic, an

Institution for the training of children who are blind, or deaf and dumb.

We are always desirous of keeping ourselves well abreast of the progress made in similar work throughout the world. We desire that the children here should not only be trained, but that they should be trained in the best possible manner, and under the best possible During the past year we lost one of our most uncircumstances. portant and most highly-trained teachers. We lost the services of a lady who for many years here discharged the duty of trainer of the deaf and dumb children in the German system, which, as most of you know, is that system by which we endeavour to enable deaf and dumb children to speak like ordinary mortals. They watch the lips of those who converse with them, and by a long series of various labialistic offorts, they are made to speak something like ordinary human beings. Miss Bateman, who was here for many years, left to go to Hong Kong, and our difficulty was to know how to proceed in filling up this most important position. We could, of course, have followed the plan we ordinarily follow of sending to England and there obtaining the services of some person trained in one of the large Institutions for this specific purpose. But we found that amongst our own teachers in this Institution was a young lady of singular ability, well adapted for the teaching of this particular system, and who, under Miss Bateman and previous teachers, had shown great aptitude for this particular class of work. As the young lady belonged to this country and to this Institution, and as she showed this remarkable aptitude, we thought that our best course would be to give her the advantages of a higher and more special training in England and on the Continent of Europe. The Directors agreed to this plan, and it The young lady has now arrived in England, is being carried out. and is being trained for this particular purpose.

There is one other matter to which I would like to direct atten-At the last annual meeting I referred to the fact that we have been in the habit of disbursing a small sum to enable the adult deat and dumb, who have been trained here and have reached womanhood and manhood, to assemble from time to time for religious instruction and social purposes. A small hall was engaged, and we paid a trifling Representations were made to us that in other parts of the world, and in other States of this great Australia of ours, a place was provided where the adult deaf and dumb young men and women could meet socially, and also for religious purposes. We, therefore, arranged with the Water and Sewerage Board to lease the land adjoining these premises for this special purpose, and we are now building a hall where these young people can meet, and obtain religious instruction, and from time to time obtain the advantages of that social intercourse which otherwise would be denied to them. We are very desirons of carrying out the operations of this Institution, not only in a scholastic way, but also with regard to the future life of those who have been originally under our control. We endeavour to find situations for them in the city and elsewhere, and we watch their career as far as we possibly can. We hope before many months are over that the building which we are now erecting will be occupied for

the purpose for which it has been erected.

There are other matters of detail referred to in the report, which are well worth the careful consideration of those who take an interest in this Institution, but I need scarcely enter into them on such an occasion as the present. I will only say this, that, speaking as I do

as a member of the board, and as having been long connected with the Institution—speaking as the mouthpiece of the Board of Directors on this occasion-I say we are anxious to do all we possibly can for the children we have here, and we have only one sad drawback in connection with our work. We know that we have not all the deat, dumb and blind children in this State, who ought to be within the walls of this Institution for training. We are placed at a great disadvantage occasionally in consequence of children being brought here at too advanced an age to receive the penefits of in-struction. A great many children are never orought here at all. In England an Act of Parliament is in force whereby compulsory education is provided for those children. I do not know whether that would be a very great advantage here, seeing the comparatively small number of these children that we have in New parents Wales, but I do know this, that a lamentable mistake in keeping their children, from a misdirected natural affection, away from this Institution, when they ought to be here to receive the benefits of the instruction so amply and fully provided for them. There can be no objection on the score of expense, because this Institution receives within its walls the poorest child who comes within the category of those who need its assistance. There need be no objection on the ground of want of affection, because, as I have already said, the officers of this Institution really devote their lives to these children, and what objection the parents can have can only arise, as I have said before, from a misdirected natural affection for these children.

I hope sincerely that the efforts of our new collector, who has recently been appointed in accordance with the recommendations of the Royal Commission which sat some few years ago, will be adequately rewarded by his being enabled to bring to this Institution some of those children in the remote interior, as well as in the cities of this great State, who are now deprived of the benefits which might

accrue to them if they were domiciled here.

With regard to the finances, a great deal of credit is due to the Treasurer of this Institution for the careful way in which he watches over them. We know that in some public institutions, I won't mention where, there are great difficulties in connection with these matters. Our Treasurer is careful. The Auditors, who are not Government auditors, appointed by the State, but private gentlemen, devotedly give their services in this respect for the benefit of the Institut on, and carefully watch all items connected with the management. They certify that the balance-sheets are perfectly satisfactory in

every respect.

I have only one further matter to refer to. When I arrived here this afternoon I took the opportunity of going to the Board-room. more as the result of my monthly habit than anything else, I suppose, and instead of meeting there my colleagues, I met some ladies, if you please. What were they occupied with? Not with the dry details of the resolutions to be submitted to the meeting, but they were examining a lot of beautiful needlework, first-class pastry, and so on. In fact, I was so tempted by the sight of those beautiful articles that the ladies had to ask me to retire, for fear some accident might occur in connection with the arrangements. (Laughter.) I would ask those ladies and gentlemen present who take an interest in such matters to proceed to the Board-room after this meeting, and avail themselves of the opportunity of seeing what the children can

do. You will observe that in the report it is stated one of the children has taken second prize for the excellent scones she has made. Now, scones are a great weakness of mine—when they are properly made. (Laughter.) You will be able to see for yourselves that these young girls, at any rate, are able to make scones.

Ladies and Gentlemen, I have great pleasure in moving the adop-

tion of the Report and the Balance-sheets of the Treasurer.

The Rev. J. E. Carruthers seconded the resolution. He said:—
Ladies and Gentlemen,—I had no idea when I came into this hall
this afternoon that the privilege and honour of seconding the first
resolution would be entrusted to me. I accept it both as a privilege
and as an honour that I have been asked to perform this service.

With regard to what is involved in the carrying of this resolution—namely, that the report now read be adopted, and, with the balance-sheets printed for circulation—I presume that by adopting this we express our entire satisfaction with the work of the year as it has been carried out by those who have been responsible for the management of the Institution. And certainly, so far as the facts that are disclosed in this report are concerned, and the very able, lucid, and satisfactory exposition of those facts that has been given to us by the Chairman this afternoon. I am sure we shall have no difficulty in very heartily and unanimously adopting this report. And I think we all feel that this community is under a very great debt of obligation to the President and the office-bearers and the members of the Committee, and also to the staff of this Institution, for the very efficient and satisfactory manner in which the business of this Institution is carried out.

I notice that there have been during the year very nearly 120 pupils, who have experienced the benefit of the domestic supervision and the educational training, and also manual instruction that completes the regime of this Institution, and that the finances have so been husbanded and cared for as that all the expenses have been provided, and a small balance is left to be carried forward for the operations of the next year. Well, so far for the facts as they appear upon the surface. If we go below the surface to enquire into the results produced in the cases of those who are the subjects of instruction and firaining here. I am sure we shall feel that we owe a great debt of gratitude to those who give their time and their professional knowledge, as the members of the Committee do, to the earrying out of the work of this Institution. It does seem to me that an Institution of this kind exists to a very large extent to carry out by what may be called the process of modern science, under the direction of Christian sympathy, those beneficent works, those miracles of healing indeed, that our Lord Jesus Christ performed whilst he was here upon earth in the fulfilment of His divine mission. And if these physical maladics cannot exactly and wholly be cured, yet such ameliorating influences and methods can be brought to bear as that to a large extent practically a cure is effected, and the inmates are brought into touch with life, into touch with human sympathy, human knowledge, the enjoyments and opportunities of life; and I say that this is, in part, carrying out the same beneficent work that our Lord Jesus Christ carried out whilst he was here, healing the sick, unstopping the cars of the deaf, opening the eyes of the blind, and causing the We are in presence, of course, of a great mystery, dumb to speak. one of those mysterics which perhaps we shall never be able fully to explain whilst we are here. I was greatly touched by an incident

that I read. A teacher in a deaf and dumb institution put a question upon the blackboard, asking could any of those present, deaf and dumb, explain how it was that God had made them to be deaf and dumb, and one of the pupils came forward and wrote under that question this answer: "Even so, Father, for so it seemed good in Thy

sight.'

Now, if our heavenly Father has been pleased, in His own inscrutable Providence, to cause this affliction to fall upon so many here, at any rate as one of the ameliorating considerations, it gives scope for Christian sympathy, it affords an opportunity for the practical exercise of Christ-like compassion, and it gives us the opportunity of doing what lies in our power to do to ameliorate their condition and to brighten their life, and to bring them into touch with all those things which make existence itself desirable and happy.

I have very great pleasure, Mr. Chairman, in seconding the

adoption of the Report. (Cheers.)

The resolution was carried.

Mr. Fred. Phillips, the Treasurer, moved the second resolution, which was as follows:—"That the thanks of this meeting are hereby given to the Government and Parliament for the annual donation of £450 in aid of the funds of the Institution."

He said:—I have very much pleasure in moving this resolution, which does not require the silvery eloquence of Sir Arthur to commend it to you; therefore I will not inflict a speech upon you, but

will content myself with simply moving the resolution.

The Rev. B. Stephens, in seconding the resolution, said:-Sir Arthur, Ladies and Gentlemen,—When this resolution was placed in my hands I was told that to second it was a purely formal matter, but I do not regard it altogether in that light, because in the very interesting address from the chair, you have heard outlined some of the important work carried on in this Institution during the last twelve months, and it must be patent to every reflecting mind that it would be impossible to carry on this work without lubricating the wheels of the machinery. When I talk about lubricating the wheels of the machinery, I refer to the necessity of having money to meet the expenses incidental to carrying on the work of an Institution of this kind. After all, it is not very much to thank the Government for a paltry sum of £450. Some one remarked that it ought to have been £900, and had it been £900 there is no institution where that sum of moncy would have been more thoroughly and beneficially expended than this. When we consider the nature of the work carried on here, the sum of £450 is not a very large subsidy for the Government of this country to grant. While we thank the Government for that amount, I suppose that the Treasurer and members of the Committee have a secret wish in their own breasts that next year it may be £950. I know they would have ample opportunities of expending that amount. It is evident, from the list of perpetual subscribers which adorns the wall, that in the past men and women have been found who have manifested the deepest interest in connection with this Institution. That list is only an index to the feeling of men and women throughout this great Commonwealth, and their willingness to aid in every possible manner the efforts of the Board in carrying on the beneficent work of the Deaf, Dumb, and Brind Institution.

I have very much pleasure in seconding the resolution.

The resolution was carried.

Mr. Alex. Dean, J.P., then moved the third resolution, which was as follows: - "That the following gentlemen be members of the Board of Management for the ensuing year:—President, the Hon. Sir Arthur Renwick, K.B., M.L.C.; Vice-Presidents, Mr. J. H. Goodlet, J.P., and Mr. James R. Love; Hon. Treasurer, Mr. Fred. Phillips, H. lips: Hon. Secretary, Mr. Ellis Robinson; the Retiring Directors, Mr. W. H. Simpson, J.P., Mr. Robert Chadwick, and Mr. John Harris, J.P.; and that the following do constitute the Medical Staff: Hon. Consulting Physician, the Hon. Sir Arthur Renwick, K.B., M.L.C.: Hon. Physician, Dr. W. Camae Wilkinson; Hon. Aurist and Oculist, Dr. T. Storie-Dixson; Hon. Surgeon, Dr. Her-

bert J. Marks."

Ho said he could endorse every word which had fallen from the President, and wished to impress on those present what he had said with regard to the difficulty which existed in persuading parents who had deaf, dumb and blind children to bring them to the Institution. He hoped that those present—especially the ladies, who had great influence-would tell the parents of such children, that from their own knowledge they could be assured that the children would find in the Institution a good Christian home, where they would be well cared for—in fact, as good a home as could be found anywhere in the city of Sydney. (Hear, hear.) With regard to the gentlemen proposed for election, he had sat with all of them, and knew from experience that they all had the interests of this great Institution at heart. hoped they would be re-elected.

Mr. Thomas Cowlishaw, in seconding the resolution, remarked that the gentlemen named in it had done so much for the Institu-

tion that their work recommended them for re-appointment. He then put the motion, which was carried unanimously.

Sir Arthur Renwick, in returning thanks, said that it afforded him very great satisfaction that such excellent gentlemen (not, of course, including himself in this description) had been appointed for the ensuing year to carry out the work of the Institution. one of those gentlemen had during the past year worked very dulgently indeed, and, with the exception of Mr. Robert Chadwick, who was now in England, they had unitedly and earnestly endeavoured as far as possible to carry on the various works connected with this place. The work required a varied kind of experience, and it would be seen that his colleagues, from their long business experience, their long connection with various religious institutions in this country, and their philanthropic character generally, formed about as excellent a Board as could be desired.

With regard to Mr. Robert Chadwick, who was at present in England, he was proposed for re-election because his services in England at other times had been of extreme value to the Institution, and at the present time he was making all the necessary arrangements in connection with the training as a teacher of the young lady who had been sent home to England. His fellow-directors were only too glad to retain Mr. Chadwick on the directorate. With regard to the Medical Staff, Drs. Wilkinson, T. Storie-Dixon, and Marks, had devoted a large amount of valuable time, away from their professional duties and calls, to the benefit of the inmates of the Institu-When it was remembered that the children were defective in many ways, and required highly specialised medical attention, it would be seen that the services of these gentlemen were very valuable. On behalf, therefore, of the staff and the honorary Board of Management, he returned most sincere thanks for re-election.

This concluded the ordinary business of the day, but a further very pleasant hour was spent by the audience in listening to tho music and singing of the blind pupils, under the direction of their

teacher, Mr. Arthur Massey.

The deaf and dumb also contributed to the pleasure of the gathering by demonstrating their progress. One little boy, a deaf mute, demonstrated the wonderful results achieved by the articulation system by answering the questions put to him by some of the audience, and repeating the words of a well-known hymn. Another pupil wrote on the blackboard an interesting account of the meeting then in progress, and the President remarked that it was so very full and complete that the reporters present would have no work to do. pupils showed their expertness in figures by answering questions relating to simple interest, and giving correct answers.

With regard to the item on the programme, Part Song, "Farewell to Australia," the President informed the audience that this poem was written about three years ago by an inmate of the Institution, who had since passed away. It had been set to music by Mr. Massey, and might be taken that afternoon as the author's requiem. The song was very touchingly rendered by the blind pupils, and was

very affecting and pathetic.

That the deaf and dumb are not devoid of a fund of humour was made quite apparent by some pantomime acting, wherein one of the students represented himself to be suffering from a bad tooth, and another in a very expert manner kindly relieved him from further suffering by extracting the tooth, not forgetting, however, to render his account for so doing; whilst the experienced manner in which another boy set about cutting the hair of one of his friends proved very amusing.

The President remarked that those who wished to become better acquainted with the work of the Institution were invited to attend

on visiting days or at the Annual Examination.

The singing of the "National Anthem" brought the proceedings to a close, and most of the visitors then made an inspection of the dormitories, and the display of pastry and needlework made by the girls, and modelling, carpentry, and other manual work performed by the boys. The excellence of all the arrangements provoked the admiration of those who were present for the first time.

## Composition by the Pupils.

The following specimens of composition, or essays, are the work of some of the pupils (the subjects are of their own choosing), and receive no correction, except such as their respective writers can make on a careful review, when the prominent errors are pointed out by a teacher. In judging them it is well to remember the ages of the writers, and the length of time at school, also that very few, if any, had acquired a knowledge of written or spoken language previous to their admission into the Institution.

## THE DEATH OF QUEEN VICTORIA.

The good Queen's death came last January as a shock to everyone. She suffered little during her last illness. The South African war had caused her great grief, for she was very fond of her soldiers. She passed away on January 22nd, surrounded by her children and grandchildren, at the ripe age of eighty-one years. She died in Osborne Castle, in the Isle of Wight. The funeral had to go first by steamer to Portsmouth. The coffin was carried on a gun-carriage. The Royal mourners walked three abreast. The King was in the middle, with the German Emperor on his right and the Duke of Connaught on his left. The bands played very solemn and sad music. Lord Roberts was with the mourners. The train carried the coffin to Victoria Station, in London, and thence to Windsor. The Kings of Greece and Portugal were at Victoria Station. Everybody in London, even the poorest people, were mourning. They made no noise in the streets at all. Princes from nearly every country in Europe followed. It was very cold weather, so the horses were troublesome, but the naval guard of honour came to the rescue, and slowly pulled the carriage themselves. The funeral service was held in St. George's Chapel. Probably the King will be crowned next year. The coronation service will be held in Westminster Abbey. Everyone will long remember the good Queen, whose example was always nice, and whose character and influence did so much good.

## THE WAR IN CHINA.

The situation in China is still troublesome. The foreign Powers and the Boxers often fight. The Chinese War began last year because the Boxers murdered the foreign missionaries at Pekin. The Boxers are like rebels. The foreign Powers are called the Allies. They are British, German, French, Russian, Italian, Austrian, Turk-

ish, and others. They are under Count Von Waldersee. He is a German commander. The Boxers are under Prince Tuan. Prince Chuan is the friend of the Allies. Some people say the Allies have acted unfairly and disgracefully, especially the French. The English soldiers have been less shameful. Russia is very greedy for territory. She wants Manchuria and ports on the east of China. England wants free trade without restriction. We hope the war will end soon, and that the Allies won't quarrel among themselves.

F.A.M.

## THE DUKE AND DUCHESS OF YORK.

The Duke of York is the son of King Edward VII. and Queen Alexandra. He married May, only daugnter of the late Duchess of Teck. They have three sons and one daughter, all of whom are very young. The Duke of York will be successor to his father probably. He and his wife had a good time among the loyal people of Austraof the world. They left England last March. They reached Sydney in May, and stayed for two weeks. Some of us did some things for the Young People's Industrial Exhibition, which was opened by the Royal Visitors on June 3rd. It was the Duke of York's birthday. They were very much delighted with the young people's work. I did a map of Australia for the Exhibition. The illuminations of Sydney were very beautiful at night. They were kept for nearly two weeks in honour of the Royal visitors. The chief streets of Sydney were beautifully decorated with flags and lanterns. My parents took me and my sister to see the decorations, etc. But I was much disappointed for not seeing the Royal visitors. My parents were afraid of the crowd. Many people gave them handsome presents to take home to England. Some people, who did great things for the Royal visitors, got presents from them. They are in North America now, and will sail for England shortly. I am sure their children, who are with their grandfather and grandmother, will be very glad to see them. The Duke opened the Federal Parliament in Melbourne on May 9. He and his wife had a good time among the loyal people of Australia, India, Canada, and Cape Colony.

E.C., age 11 years.

## THE DEATH OF MR. McKINLEY.

Mr. McKinley was the late President of the United States in North America. He was a good and God-fearing man. He shook hands with many people. An Anarchist named Czolgosz was among them. He had a pistol with him. He shot at him while shaking hands with the President. The President was very calm, and was taken home. He was well attended by skilful doctors, who hoped to save his life. But he sank fast. He left a widow. They nad two daughters, who died some years ago. The people of America miss him very much. The Anarchist was taken prisoner, and will be hanged soon. Some buildings and churches in Sydney were draped as an expression of sympathy with our American kinsfolk. There was great mourning and sorrow in every civilised country. Mr. Roosevelt is the new President.

## HOME.

Home is the place where my parents and brothers and sisters live. "There is no place like home." Sometimes poor people have no home. They sleep outside. It is a pity of them. My home is at Leichhardt, but I live here for education. There is no home like Heaven. If we love Jesus, He will "take us home on high." My mother's home was in Seotland, where she was born. My father was born in New South Wales. The pupils of this Institution go home in December. They are glad to go and see their homes and friends. Rich people have grand homes. Poor people have humble homes. The home of a King is ealled a castle. A hut or tent is the home of many a poor family.

W.B., age 12 (4 years at school).

## WATER.

Water is a colouriess fluid. We use it to drink, to cook with, to bath in, to wash clothes, and to scrub floors. All animals and birds drink it. Some animals can live in it. A few of them are beavers, seals, Polar bears, crocodiles, and the platypus. They are called amphibious animals. Fishes live in it. Some birds swim on the water. They have webbed feet. The sea water is salt. We cannot drink it. Rain is water that falls from the clouds in drops. Rain makes the grass, trees and flowers grow. It lays the dust. It makes the air cool. Everything looks fresh and green and pretty after rain.

M. O'S., 2½ years at school.

## THE ANNUAL MEETING.

The fortieth annual meeting was held yesterday at 3 o'clock. Sir Arthur Renwick was the chairman. He is the President of the Institution. The members of the Board were on the platform. The Ladies' Committee sat in the front of the hall. Clive Bromley and Milton O'Sullivan spoke for the visitors. Frank Moore wrote the vowels and eonsonants on the blackboard. The manual pupils signed hymns—viz., "There is a Green Hill Far Away," and "O God of Bethel, by Whose Hand," while the blind boys sang. Some of the boys imitated the hairdresser and dentist. I think Sir Arthur Renwick liked the dentist part best. The visitors all laughed. Before the meeting broke up all that were in the hall stood up and sang "God Save the King." After that the visitors looked over the Institution. In the Board-room, on the table, there were cakes, puddings, jellies, etc., which the elder girls cooked. They are taught by Miss Swayne. There were boys' shirts, which were ironed by some girls. The first prize for ironing was given to one of the girls named Chrissie Allen, and Ida Scott got second prize. The Board-room was full of visitors. All went about 5 o'clock. Flags were flying all day from four new poles, in addition to the old flag-staff. The pupils prefer the meeting in December to the annual meeting, for then we 'all get home for the holidays.

G.D., aged 13 years.

## THE TARIFF.

The tariff was put in force in Sydney lately. It is a table of duties or tax on goods. A duty means a tax or customs import. Protectionists impose duties on goods. Freetraders do not impose duties. Mr. Reid is the leader of the Freetrade party. He does not like the tariff. He knows that many poor people will not be able to buy dear things. He is trying to defeat Mr. Barton in Parliament, and remove all duties. Mr. Barton has put on too heavy duties on articles. He was the first to hold office as Prime Minister of the Anstralian Federal Government, and poor people in New South Wales feel disappointed. They now begin to dislike Federation because of the higher price of things. Freetrade is best; it means cheap living. But Protection means costly living.

E.P., age 12 years.

## FAREWELL TO AUSTRALIA,

Australia the land of my childhood, I leave thee with sorrow and pain, To wander in countries far distant, Nor visit thy dear shores again; But oft when I'm sad and despairing, And storms rage on every hand, My heart will be filled with fresh courage, By the thought of my dear native land.

Australia, when morning and evening My prayer doth ascend to the skies, Thy name will be fervently mentioned That in honour and power thou may'st rise; That thy sons may be valiant and noble, Thy daughters the fairest on earth, That the world may re-echo thy praises, Australia, the land of my birth.

Australia, the home of my loved ones, Those fond hearts united to me By the bonds of undying affection, No more on this earth I shall see; But their love will illumine my pathway, Their memory be kept pure and bright, Till the day when we all meet in heaven, The land of eternal light.

Farewell, dear Australia, for ever,
No more can I call thee my home,
For with sorrow and care for my portion,
O'er this wide dreary world I must roam;
But my last prayer will be for thy welfare,
My last wish to visit thy strand,
Farewell to thee, Queen of the Ocean,
Australia my own native land.

F. K.—(Blind) 15 years old, 6 years at school

## COLLECTIONS BY FRIENDS.

The following is a resumé of Subscriptions collected during the year in the Country districts, full details of which are given on other pages. The warmest thanks of the Board have been awarded to the ladies and gentlemen named for their generous and valuable assistance.

## List of Work done during the Past Twelve Months.

## PLAIN & FANCY NEEDLEWORK.

- 66 Sheets
- 60 Pillow Slips
- 110 Towels
  - 8 Pinafores
  - 28 Aprons
  - 20 Tablecloths
    - 8 Dresses
  - 21 Mosquito Nets
    - 6 Night Dresses
  - 38 Counterpanes

    - 2 Egg Cosies

- 1 Tray Cloth, shadow work
- 3 Afternoon Tea Cloths
- 1 Cot Quilt, Mount Mellick
- 4 Serviette Rings
- 2 D'Oyleys
- 2 Centre Pieces
- 2 Pairs Bootees
- 1 Pin Cushion
- 1 Crochet Petticoat
- 1 Knitted Vest

Also a large number of useful and fancy articles of carpentry work done by the deaf boys in the workshop.

## The Following Miscellaneous Donations and Services are Thankfully Acknowledged.

Bennett, J. A., prizes for pupils.

Chief Secretary, the Hon., free railway passes for children going home, and for the Collector visiting the country.

Dangar, F. H., Christmas treat of fruit (11 cases), cakes and lollies.

Darvell, Mrs., several cases oranges.

Fitzgerald Bros., free admission to Circus.

Goodlet, Mrs. J. H., prizes for pupils, also cakes and fruit.

Harris, Lady, prizes for pupils.

Horticultural Society, free admission to Flower Shows.

Mayor and Aldermon of Sydney, free admission to Organ Recitals.

Proprietors of Sydney Mail, Daily Telegraph, Christian World The Methodist, and Courier Australien, free copies of their papers.

Sands, John, copy of "Sydney Directory for 1901."

Tollemache, E. D., free use of picnic grounds.

Wood and Company, free conveyance of officers and pupils to Sandringham.

Windeyer, Mrs., Kinross, Raymond Terrace, 2 large cases oranges.

Zoological Society, free admission to Zoological Gardens.

## SPECIAL INFORMATION.

"The object of this Institution is the education and maintenance and, as far as practicable, the advancement in life of deaf and dumb and blind children."

The Institution is open to Subscribers and other Visitors on Tuesdays and Fridays from 2 to 4 p.m., and at other times on special order from the Honorary Secretary or a Director.

The Parents and Friends of children are admitted once a fortnight, on Thursdays, between the hours of 2 and 4 p.m.

The children are permitted to leave the Institution to visit their friends once a month, on special written application being made to the Hon. Secretary.

When a case of serious or infectious illness occurs while the children are at home, it must be reported to the Hon. Secretary, and the child not returned until quite recovered.

Forms and all particulars for the admission of pupils can be obtained of the Honorary Secretary.

Subscriptions and Donations will be thankfully received and acknowledged by the Treasurer, the Secretary, or at the Institution.

The Meetings of the Board of Management are held on the Second Monday in each month, at 3 o'clock p.m. The Ladies' Visiting Committee meet at the Institution on the last Friday in each month, at 3 o'clock.

The cost of passages to and from the Institution must be paid by the friends of the pupils, the Board having no fund for this purpose.

All communications to be addressed to Mr. Ellis Robinson, Honorary Secretary, at the Institution, Newtown Road, or 225 Castlereagh Street, Sydney.

Money orders should be made payable to the Secretary or Treasurer, at the General Post Office, Sydney.

It is highly necessary that the Parents or Friends of children should notify the Secretary of any change of residence, so that, in case of illness, or other cause, immediate communication may be made.

The Public, Subscribers, and friends of the Institution are earnestly entreated to notify the Secretary of the existence in their districts of any Deaf and Dumb or Blind Children from 7 to 15 years of age, it having been a source of great regret to the Board to find that several children have passed the age of admission, simply from their not having come under the notice of some kind friends who would take the necessary steps to enable them to be brought within the advantages of the Institution.

## SUGGESTIONS

(FROM THE REPORT OF THE OHIO INSTITUTION FOR THE EDUCATION OF THE BLIND).

To the Parents and Guardians of Blind Children and Youth:

The age at which it is best for children to enter the Institution depends very much upon the circumstances of the families to which they belong. If they can be under good influences at home, can have the care of mothers and sisters, can take exercise in the open air, can be taught the use of words, can learn to count, and commence learning to read, it is unquestionably better for them to remain at home until they are nine years old; but if they cannot receive proper care, and be taught some of these things, they should come at the age of seven or eight years.

The following are some of the things which may be learned at their homes:—

- 1. To count and number, and to add, subtract, multiply and divide, etc.
- 2. The multiplication table.
- 3. To spell common words, beginning with monosyllables.
- 4. The meaning of common words.
- 5. The letters in raised priut.
- 6. Items of general information. Every blind child of six or seven years old should know the points of the compass, the name of the town and district in which he lives, etc.
- 7. Hymns, verses of Scripture, and select passages of prose and poetry which they can understand, should be committed to memory.
  - 8. Singing common tnnes.
- 9. There is no reason why a blind child should not commence attending the public or other school with his seeing brothers and sisters, and take part in the exercises in spelling, mental arithmetic, geography, etc.; indeed, in everything, including reading where furnished with books snitable for the blind.

Blind children can learn everything which can be taught by conversation, and by giving them an opportunity to examine and handle objects, just as well as those who have sight; and there is no reason why their education should not be commenced as early as that of seeing children. Indeed instead of being neglected because they are blind, they should be taught with more care. Children who have pursued the course above recommended have entered the Institution with as much knowledge and discipline as they could acquire in one or two years of tuition here, and their future progress is much more easy and rapid than that of those who have had no such training at home.

I will furnish a copy of the alphabet, in raised type, to the parents of any blind child who will give me their names and post office address, and shall take great pleasure in giving any information which they may wish in relation to books or other things pertaining to the instruction of such children at home, or in regard to their admission to the Institution. For such information, please address Mr. Ellis Robinson, 225 Castlereagh-street, Sydney.

After pupils have entered the Institution, it is important that they should be present every day while they profess to attend. Scholars can not be absent for a week or more without great loss to themselves, and great inconvenience to teachers; much greater than would be the case with other scholars, because here the instruction is given almost entirely by the teacher, and the scholar who is absent cannot make up the missing lessons by studying them from books. The only possible way is for the teacher to sit down and do all the work over again. If this is not done, the pnpil must suffer the inconvenience of his loss.

It has been our constant aim to secure to our pupils the greatest possible amount of benefit from the time allowed them here.

If a pupil find it necessary to remain away from the Institution for one or more terms, the common or public school should be attended when it is possible. The knowledge gained thus will be found a great help on resuming the studying here.

The blind arc, for the most part, to spend their lives among those who have sight. It should be the aim of all who have the oversight of them to render them as much like the secing as possible. They should be carefully guarded against forming any habits which will be disagreeable to others. The blind are always noticed by strangers and their manners and habits observed more particularly than those of other persons; hence it is a very great kindness to them to prevent them from acquiring unsightly habits, or to correct them if such have been formed.

Much effort has been used to make the opportunities here provided known to the blind, and to induce them to enter as soon as possible after loss of sight. The importance of beginning, as soon as may be, to labor as blind men, cannot be over-estimated. Every month's delay renders it more difficult for them to learn, and makes them more awkward, to say nothing of the moral influence of idleness, and the feeling of helplessness and dependence which must attend the person who feels that he is doing nothing for himself or others.

It has been customary to encourage our pupils ou lcaving to locate iu the neighbourhood in which they are acquainted, rather than to look to the Institution to help them to employment. The wisdom of this plan is proved by experience every year. For the last twelve or fifteen years hardly an individual of ordinary force of character, who has pursued this course, and laboured with perseverance and industry, has failed to make a respectable livelihood, while many have succeeded as well as the average of seeing persons.

## Information and Directions relative to the Admission of Children to the Institution.

- 1. Applications must be in writing, addressed to the Secretary, sent before the child is brought to the Institution, and should contain as full information as possible. The necessary forms can be obtained of the Hon. Secretary.
- 2. Pupils are admissable from any part of the State of New Sonth Wales and, under certain conditions, from other States.
- 3. No child deficient in intellect, subject to fits, or nnable to wash and dress itself, can be considered a fit subject for admission; and no child, whose conduct or habits are deemed by the officers to be objectionable, will be allowed to remain in the Institution.
- 4. No child shall be admitted of an age younger than seven years, nor older than twelve years, unless under special circumstances, to be decided by the Board.
- 5. No order will be given by the Sccretary for a child's admission until the medical certificate has been obtained, and it must be understood that no children are eligible for admission until every means have been tried for restoring their sight or hearing as the case may be.
- 6. Children, on entering the Iustitution, are required to have two complete suits of clothing for school or week-day wear, to be of dark colonr, and a better suit for Sunday, and to be provided with clothing (see list) by their parents or friends during their residence. Each child must be provided with a box or trunk, in which to keep clothing when clean. If £5 be remitted, the Board will purchase an ontfit on admission.
- 7. Any amounts remitted to the Secretary for the purchase of clothing will be expended under the direction of the Board of Management.
- 8. The fees payable in ordinary cases for the board, education, etc., of the children in the Institution, are—£40 per annum; in special cases a lower scale of fees is adopted.
- In the case of pauper children, a certificate of inability to pay any fee must be obtained from known individuals.
  - 10. Fees are payable in advance, and datc from time of admission.
- 11. Children cannot be permitted to leave the Institution unless with the direct sauction and authority of the Board of Management.
- 12. In addition to the usual educational course, the girls are taught cookery, household duties and plain and fancy needlework; and the deaf boys carpentry.
- 13. The vacations are 5 weeks at Christmas and 1 week at midwinter; and it is essential that pupils should return to the Institution on the day fixed to commence duties after each vacation, "aud with their clothing clean and in proper order." (See list).
- 14. The average term of residence in the Institution for pupils is from 2 to 10 years, but the length of stay depends a good deal on the age of the child when admitted. Parents should particularly note this, as, if a child is kept at home until 12 or 13 years of age, it cannot be permitted to remain the full term, and as it takes from 8 to 10 years to educate an afflicted child properly, it is very important that it be sent when about 7 years of age. Parents will only have themselves to blame if they keep their children at home too long and then have them only partially educated.
- 15. Except under special circumstances children will only be admitted at two periods of the year, viz., in January and July.
  - 16. It is requested that all communications be addressed to

ELLIS ROBINSON, Hon. Secretary,

225 and 227 Castlereagh-street,

## NEW SOUTH WALES

## Institution for the Deaf and Dumb and the Blind,

NEWTOWN ROAD, DARLINGTON, SYDNEY.

## CLOTHING REQUISITION.

Each child on entering the Institution must be supplied with the following quantity of clothing:—

### FOR BOYS.

- 2 Suits for week-day wear
- 1 Suit for Sunday wear
- 4 Day Shirts, white or Crimean
- 3 Night Shirts
- 6 Pairs Socks or Stockings
- 2 Hats
- 12 Collars
- 12 Handkerchiefs
  - 2 Pairs Braces
  - 2 Neckties
  - 1 Hair and 1 Tooth Brush
  - 1 Rack and 1 Fine-tooth Comb
  - 3 Pairs Boots
  - 1 Overcoat

## FOR GIRLS.

- 3 Dresses for week-day wear
- 1 Uniform Dress, Sunday wear
- 4 Petticoats, general use
- 2 Petticoats, Sunday use
- 6 Pairs Stockings
- 2 Hats
- 6 Collars or Frills
- 12 Handkerchiefs
  - 1 Warm Jacket
  - 6 Pairs Drawers
  - 2 Pairs Stays or Bodices
  - 6 Chemises
  - 3 Night Dresses
- 12 Pinafores or Aprons
- 1 Rack and 1 Fine-tooth Comb
- 1 Hair and 1 Tooth Brush
- 3 Pairs Boots

Each child to be provided with a Box or Trunk. All clothing must be plainly marked with the child's name in full. The girls' dresses may be print for summer wear, and a warmer material for winter wear.

Boys' Suits should be of dark coloured washing tweed, or

other similar material.

On the children visiting their homes during vacation, it is requested that all clothing be put in thorough repair before being sent back with them.

At the termination of each year an account showing the amount due will be furnished, and it is requested that this amount be paid previous to the return of the children after vacation.

## ELLIS ROBINSON,

Honorary Secretary.

17 Castlereagh Street.

## HINTS TO PARENTS WHO WISH THEIR DEAF CHILDREN TAUGHT TO SPEAK.

Do not check, but encourage, the child in the production of vocal sounds, noises, and laughter, even though such sounds may be deemed unpleasant or discordant. Speak to the child at all times, slowly and distinctly in such a manner

as to afford a good view of the lips and tongue.

Though at first not able to understand, the child will in course of time, if this practice be persistently carried out begin to associate certain movements of the lips and tongue with certain objects and actions. Many deaf children in this way are taught by their parents and nurses to speak understandingly such words as papa, or mamma, etc.

On the same principle that the sound of the spoken word, striking continually on the active ear of an infant, at length connects itself in the child's brain with a certain object or action; so does the movement of the lips and tongue convey a similar impression through the eye of the deaf child, as to the relations existing between such movements and the objects,

Avoid most earefully making signs. Use no more natural gestures than are absolutely necessary. A look or pointing at the object should, as a rule, suffice. Encourage the child to associate with hearing children. If possible keep the deaf child strictly apart from those using signs or the finger alphabet.

Be very patient and consistent in your treatment of and behaviour to the deaf child, and see that others are, too; not quick and impatient at one time and over indulgent at another, but always loving, gentle and firm. As a rule there is nothing in the deaf mute child itself to prevent physical and intellectual improvement. He has the same mind, the same understanding, the same eapacity to learn as other children How shall his mental faculties be developed, how shall he learn from others to use their language when he eannot hear their words?

The solution of this problem is the special province of schools for the deaf. Instruction in such schools can only result successfully when it is assisted and prepared for by the Home training. In the early education of deaf mutes it should be taken into consideration that in consequence of their infirmity they are more dependent upon others, and have more elaim to patience and forbearance than those who hear.

From their earliest infancy they should feel the lack of this forbearance and patience as little as possible. Parents must assist the deaf mute child from the first, and devote themselves to him more self-sacrificing than to others. above hints are certainly not meant to encourage parents in pampering their deaf children, or spoiling them by over-indulgence, or fostering self-will in any way.
